Recapitulation of ONE Production for FY 1952
and FY 1953 Indicating Origin of Estimates

Originator	FY 1952			FY 1953		
	SE	NIE	Total	SE	NIE	Total
IAC <u>1/</u>	3	14	17	6	20	26
NSC <u>2/</u>	9	1	10	12	3	15
State <u>3/</u>	4	5	9	1	3	4
Defense <u>4/</u>	1	0	1	0	1	1
Joint Staff <u>4/</u>	2	2	4	0	0	0
G-2 <u>5/</u>	0	5	5	0	2	2
ONI <u>5/</u>	0	1	1	0	1	1
AFOIN <u>5/</u>	1	1	2	0	0	0
TOTAL	20	29	49	19	30	49

1/ Includes estimates proposed to the IAC as a program. These are proposed by the Board of National Estimates after consultation with the NSC, the EIC, the SEC, the JAEIC, and the IAC member agencies. Also included are those proposed by Board and those requested by DCI on an ad hoc basis. The program of estimates is of course designed to anticipate policy needs and therefore endeavors to reduce to a minimum the ad hoc requests placed on the IAC by the NSC and the policy side of State and Defense.

2/ These requests by and large are received informally through the CIA personnel working with the NSC and its subordinate staff components: DCI as advisor to NSC; DD/I as advisor to the NSC Planning Board; and the ONE staff representative on the NSC Board Assistant level.

~~SECRET~~

- 3/ These requests originate in the State Policy Planning Staff or in one of the Bureaus. Occasionally come direct from Secretary of State or the Undersecretary. Usually through the Special Assistant, Intelligence, Department of State.
- 4/ Most Defense requirements are taken care of through the Program or via NSC.
- 5/ These are ad hoc requests. Diminish as needs are anticipated in Program.
